

physics/physicsMacros.h

```
graph TD; A[physics/physicsMacros.h] --> B[lcom/lcf.h]; A --> C[float.h];
```

The diagram illustrates a header file dependency. At the top, a gray box contains the text 'physics/physicsMacros.h'. Two blue arrows originate from the bottom center of this box and point downwards to two separate white boxes. The left box contains the text 'lcom/lcf.h' and the right box contains the text 'float.h'. This visualizes the 'physics/physicsMacros.h' file including both 'lcom/lcf.h' and 'float.h'.

lcom/lcf.h

float.h
